- 4) Use foliage stamps and ink to add a base for your design and a back drop for your Flower Soft™ (Optional)
- 5) Cut approximately 5 very fine strips of green paper/card approximately 5cm long.

Step 1

Create flower stems by adding PVA glue to the ends of 2 inch long Flower Soft™ wire and sprinkle over your Flower Soft™, place in sponge to dry and repeat seven times.

Step 2

Cut out your chosen pot from our Garden: Pots & Urns Pack. Press it round a glue bottle or something similar to give a rounded effect. Glue the edges to your card, leaving a 'pocket' for inserting your stems.

Step 3

Curl a couple of green strips of paper between your thumb and a pair of scissors (as if curling ribbon). Glue and arrange the stems and strips inside the pocket of your pot. Allow to dry.

Step 4
Dab PVA glue to areas of the background you want to highlight, such as stamped areas, while it's still wet sprinkle on Flower Soft™ and tap off any excess.

Step 5

Finally add a sentiment from Sentiments range; we mounted it on coordinating card with spacers and peel-offs to finish.
