**Gift Bag:**

I used the white, green, and gold pearl holiday strips. When I glued them on, I found the bag was accidentally marked by my fingernails. To hide my marks I used an embossing stylus, drawing scrolls and leaves over the front of the bag which

added a nice effect! This made a wonderful birthday gift for my Aunt filled with nice chocolates. I also used magnets under the bow to keep the bag closed.

**Sleigh Christmas Card:**

This design was inspired by a picture of a Christmas ornament.

I used gold strips and the nice deep red included in the kit. This was very fast to do, as I just placed random scrolls throughout the sleigh, which I made with spirals. The buttons embellished it very well too; I thought it matched quite nicely with the background paper!

**Ann's Vellum Favor Bag:**

Having a party and need to make lots of cute favors in a hurry? This little treat bag is just the ticket. And it's double the fun because your guests will go home with both a sweet treat for now and a clever stick pin that will last forever. Simply glue one of the charm embellishments to the pin and use it as the bag's focal point. Crimp a double strip of quilling paper as a border for the green cardstock oval.

**Double Scroll Ornament:**

The sturdy deep-toned red and green strips were used to make this tree ornament. These strips have the nicest sheen on the edges!

Metallic gold paper was used for the top and bottom sculptured rolls which add a bit of bling.

## Ann Martin

In the spring of 2005 a call was put out for Design Team members. Hoping I would get at least three responses to fill the spots, I was overwhelmed by the number of applicants. It was a difficult decision to choose just three.

The May 2005 issue debuted the new team of Donna Short, Paula Bauer, and Ann Martin. Here are Ann's first projects as a DT:

She became an integral part of Custom Quilling with innovative designs, articles, and the bonus ability of proofreading!

Ann is also an active member of the North American Quilling Guild, has served on the Accreditation Committee, and has taught classes at the annual convention.

Via articles published in numerous magazines including CardMaker, Crafts'nThings, Belle Armoire Jewelry, Somerset Wedding, and Bead Trends, Ann has become a driving force in sparking interest in quilling with her unique designs.

The latest accomplishment for Ann was an exhibit of her quilled jewelry, framed pieces, and ornaments at The Brandywine River Museum in Chadds Ford, Pennsylvania, May 24 – June 15, 2008. <http://www.brandywinemuseum.org>

If you have not visited her site, [http://www.delawarebyhand.org/martin\\_ann.htm](http://www.delawarebyhand.org/martin_ann.htm) stop by to see a small sampling of her work.

Her talent as a quilling artist has set the standard for many to achieve. The Custom Quilling family wishes her continued success and we will always be proud to have Ann as a member of our family.

This kit says, "Nothing like Christmas in July". The holiday quilling strip pack is always a great stocking stuffer and a great travel pack, but this kit doesn't stop there. Added in are a couple of rich, dark colors of red and green for that touch of Christmas past. The variety of project mounts has something for everyone, from jewelry to treat bags.

**Ann**

The Christmas in July kit just might help you keep your cool while you get a jump on projects for the holiday season and wintertime. There are lovely papers and cards, cute charm embellishments, gold organza ribbon, and a nice selection of quilling strips in holiday colors. I especially love the metallic gold and silver and the deep-toned green and red.

**Doreen**

I had a great time helping to design this month's kit! Thank you Denise, for accommodating what I thought would make an enjoyable kit that could be used for both Christmas and any other time of the year! I especially love the stick pin, and hope to see you carry them. I hope everyone enjoys it!

**Tip from Ann: When I'm going to use crimped paper around an aperture, I always glue two strips together to make a double thickness. A double strip holds the crimp much better than a single strip. When the strip is completely dry, I run it through the crimper.**
