Sharpen your punches by punching through tin foil, lubricate them by punching waxed paper.

### Mini Faux Wheat Weaving

Where this idea came from I really do not know....guess it just popped into my head. None the less, I think it is a great fall item; you know it being harvest time and all.

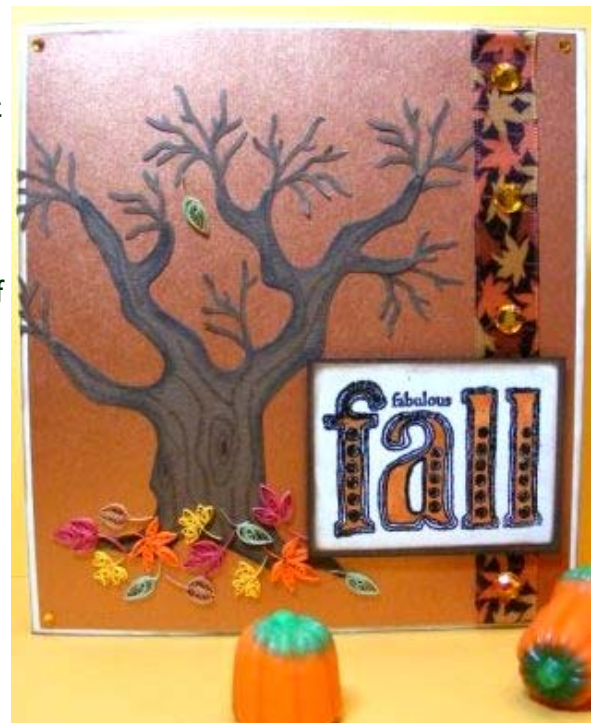

At Silver Dollar City here in Branson Missouri I am sure they are displaying the real deal now. I even decorated it with flowers and ribbons like the real ones.

### Fall Card

I was inspired by my new Martha Stewart branch punch for this project. I added punched branches to a bare tree die cut to add a bit of interest for this "naked" tree. Next I stamped the "FALL" sentiment and pop dotted it up on the front of the card. Then I quilled some pretty colored fall leaves for the base of the tree. I used the fall leaf ribbon down the right side of the card with some jewels I had here to finish off the front of the card.

On the inside of the card I used the pretty leaf printed paper as the background. Next I added some die cut leaves and a

couple more of those jewels. I added a mini card in the middle of the inside with the word "Thankful" on it. I left the inside of the mini card blank for a little handwritten note.

## Fall Votive Holder

These little votive holders would be great for your Thanksgiving table! I started by making a lattice band that encircles the glass and serves as a base for the flower arrangement.

With that glued in place I added a combination of punched, fringed and quilled items. My new Martha Stewart branch punch was great to add a bit of airiness in the background. When you are finished adding the quilling you can add a regular tea light candle or a battery operated one for instant ambiance.

### Give Thanks Card

This month's beautiful quilling strips and papers were a joy to work with and this month's project can be used as either a greeting card or an invitation to Thanksgiving Dinner. I used the parchment cardstock, decorative paper, and the metallic copper paper in the kit to create this fall card. I punched the leaves out of the metallic paper and added a green and bronze to the copper ones to highlight the decorative paper's design. A few crystals, a bow and a stamped greeting gives you a quick and pretty project.

### Turkey Place Card

I knew I wanted to do a Thanksgiving table place card this month and went through several designs, all of which were lovely made with the fall colors of quilling strips. But, I decided on this design my grandchildren would love.

The turkey is punched out of the brown card stock in the kit with scallop and circle dies. Then I embossed and inked the edges of the pieces. His eyes are drawn with a fine tip pen and his beak is quilled as well as his crimped and looped tail feathers. I popped up the layers to give him dimension.

The turkey is placed on a place card made from the parchment cardstock, copper and designer papers, layered together.

A cute informal project for Thanksgiving.

## Pecan Pie Treat Box

This one is my favorite of the projects. I had to make a treat box for my table and when I saw the brown card stock and metallic strips in the kit I tried my hand at a pecan pie slice.

The pecans on top are quilled from the metallic strips as well as some brown ones for contrast. They are made by quilling two half strips into a "D" shape, with a 5" flattened marquise in the center.

The crust of the slice are half strips quilled into "C" shapes, two glued together and alternated to give it the crimped crust look.

A bow on the back accented with a pecan and a "doily" plate give it an elegant look.

**Sue**

This month's kit represents my favorite time of year—FALL. The changing leaves make such a beautiful palette of colors here in the Midwest. Tell me, who does not smile when they see all of the plump pumpkins that are in season now? If you are not in the "pumpkin" spirit, this kit will surely help!

**Sonya**

This month's kit and its striking fall colors beg to be made into fun holiday projects. You will have a hard time deciding, like I did, what to create!

**Birthday Card**

For this card I used light yellow and aqua colored strips.

The fringed center is 1/8" strips of both colors rolled together.

The leaves are a moss green, that are formed by quilling and alternate side looped.

It's great to back sharing my work here! I have missed it so much!

**Someone Special Card**

For the flower I used peach colored strips wrapped around a 1/4" dowel, then shaped like a grape roll to give added dimension, a pearl finishes off the center, The leaves and scrolls are light green, I also added little quilled pegs in the corners. This is a simple faster design that can be used for many different occasions.
